Noida,Uttarpradesh,203207

Ph:9717396979 Email: msh.raiput007@gmail.com Profile: [Linkedin](#)

TechnicalSkills

Languages: SQL ,JavaScript ,PHP, Node.js, React, HTML5, CSS3.

DataBase: MySql, MongoDB .

Developer Tools: VSCode, Git, ,Postman

Technologies/Frameworks:, Bootstrap , Wordpress, Cypress

Others: Data Structure & Algorithms , OOPS

WorkExperience

VVnT SeQuor

12/2023-06/2024

Software Testing intern

Cypress,html5,CCS3, Automation Testing |

Noida ,Uttarpradesh

- Automated Functional and regression tests using tools like **CYPRESS** , ensuring efficient and consistent testing of web applications
- Created test scripts in **CYPRESS** , and collaborated with development teams to integrate automated test into continuous integration pipelines ,improving software quality and accelerating release cycle .
- Designed and implemented end-to-end test scenarios using **CYPRESS** , enabling early detection of defects and reducing manual testing efforts, while ensuring seamless users experience across different browser and devices
- Developed and maintained reusable **CYPRESS test Automation** frameworks, improving test coverage and minimizing redundancy ,leading to faster iteration and enhanced test reliability across multiple projects .
- Collaborated with cross-functional teams to define test strategies ,identify key users flows, and prioritize testing efforts, resulting in more comprehensive test coverage and quicker identification of critical issue during development cycles .
- Collaborate with the QA team to integrate Cypress test into CI/CD pipeline, helping streamline the testing process and reduce manual testing efforts for faster release cycle.

Deopersindia

07/2024-present

Software Developer

Noida,Uttarpradesh

- Optimized and strengthened existing **RESTAPIs**, achieving a faster response time by 95% and enhancing reliability by, demonstrating a commitment to **high-quality performance**.
- Worked with latest **ReactJS-18** ,building user interfaces using reusable components.
- Engineered robust backend system using **Wordpress framework** and **PHP**,resultingina40% enhancement in application response times and a more seamless user experience on the storefront.
- Engineered robust software solutions using **PHP&** other cutting-edge technologies and executed comprehensive **unit tests** using **Cypress** testing frameworks ,resulting in **achieving60%** code coverage.

Education

Hi-Tech Institute Of Engineering & Technology

08/20202-08/2024

Master of Computer Application (MCA)

CGPA:8.32

Hi-Tech Institute Of Engineering & Technology

07/2019-04/2022

Bachelor of Computer Application (BCA)

Percentage:87%

S.G Inter College

04/2018-04/2019

Intermediate

Percentage:93.2%

Certificates/Achivements

- Completed 3-week course on Test Automation with **Cypress** from **Geeks for Geeks**
- Completed 5-week course on **PHP** from **Geeks for Geeks**
- Completed 3-week course on **Node .js** from **Geeks for Geeks**
- Recognized for Leadership and teamwork skills During **University Campus**.
- Award for Outstanding Academic performance in **MCA Program**.
